

KVINTA CLIENT TESTIMONIALS

PUBLIC CASES

Our already long-term partnership with 3KEYS enables us to have smooth supply chain operations under a complex regulatory Track & Trace framework, such as EUTPD, new UK regulations, and others. 3KEYS delivers operational and project support via highly skilled resources with proven expertise and knowledge in both technical and business regulatory aspects. We appreciate the reliability, flexibility, and self-steering of the 3KEYS team!

WIETSE HOUWER

Global Application Operations Manager – TPD, Imperial Brands

Working with 3Keys has been a transformative experience for us. Initially, we had no idea that our partnership would extend to multiple projects. From supplying everything for our bottle line to managing our new canning line, 3Keys has been our reliable partner. They've never let us down, always providing solutions when challenges arose. With their Kvinta software, we can now track every box, bottle, and pallet, offering us unprecedented control and efficiency. We've even identified bottlenecks we were previously unaware of. Kvinta's functionality continues to evolve, enhancing our overall user experience. We are excited to fully integrate Track & Trace across all our packaging with 3Keys' support.

Artem Gusev

Project Lead of Bakalář, Czech Republic

To implement the labeling project, we chose the 3KEYS team and the cloud solution KVINTA. It was important for us to support import processes and work with contract manufacturing in accordance with legislative requirements. KVINTA proved to be a flexible product that works without failures. The solution was integrated by the 3KEYS team clearly and promptly.

NATALIA SHEVCHENKO

Head of Product Direction, Arla Foods

The GAC Group is a privately-owned company specializing in delivering high-quality shipping, logistics, and marine services to customers worldwide. GAC Group is constantly digitalizing its supply chains with proven solutions. Compliance readiness is crucial for GAC Group's business with its global and local clients from regulated industries. As an effective and modern solution, GAC Group chooses Kvinta for warehouse operations in the Middle East (Bahrain). Kvinta has the required functionality, including a mobile solution, and was tailored to the specific on-site GAC business processes. GAC Group highly values the professional team of Kvinta and its ability to match the requirements and project delivery timings.

MARTIN WALLGREN

Group CIO

ALG - the leading 3PL operator in Kazakhstan's pharmaceutical market.

"Implementing Kvinta's Track & Trace solution has transformed our operations. ALG not only ensured compliance with legal requirements but also unlocked new business opportunities and improved automation. This project has positioned us as a market leader in traceability and transparency, earning recognition from our partners and setting new standards in the industry."
